1. EXECUTIVE SUMMARY

1.1 Project Overview

SportRise is India's first unified student athlete recognition and development platform. It connects student athletes aged 5-30 with certified coaches, verified tournaments, and national scouts — all in one mobile application. The platform uses a proprietary XP-based performance tracking system and automated National Prospect identification to ensure that talented athletes are discovered regardless of which city they come from.

Phase 1 focuses on football players in Hyderabad, Telangana. The platform will be available as an Android mobile application launching in September 2026. The product is accessible at sportrise.in.

1.2 Business Opportunity

Figure 1.1 — Business Context: Current State vs Future State with SportRise

Opportunity Factor	Detail
Market Size	India sportstech market valued at \$19 billion in 2025, growing at 12-14% annually toward \$40 billion by 2030
Underserved Athletes	47 crore active athletes in India — only 0.16% carry any digital performance record
Zero Direct Competition	No funded competitor combines coaching + tournaments + XP tracking + national scouting in one platform
Government Support	Khelo India program, TOPS Talent App (SAI), and Startup India all validating and funding sportstech
Founder Advantage	Founder is a student football player — genuine domain expertise and personal understanding of the problem
Geography	Hyderabad is India's second largest startup city with an underserved sports community and strong T-Hub ecosystem

1.3 Expected Benefits

Beneficiary	Benefit	Measurable Outcome
-------------	---------	--------------------

Student Athletes	Digital performance profile visible to national scouts	Students from tier 2/3 cities get equal opportunity for national recognition
Certified Coaches	City-wide student reach through verified digital listing	Coaches grow their student base beyond local word of mouth
Tournament Organizers	Digital listing with automatic result tracking and XP award	10x more participants per tournament vs paper-based registration
National Scouts	Searchable ranked athlete database — no physical travel	Find top talent in hours instead of weeks of travel
Sports Ecosystem	Structured data on grassroots athlete performance across India	Evidence-based talent policy for sports federations and SAI

2. BUSINESS CONTEXT

2.1 Current State Analysis

The current state of student athlete development in India is entirely informal and geographically limited. There is no unified platform where a student athlete can create a verified profile, find certified coaches, register for tournaments, and gain visibility with national scouts.

Current State — Student Finding a Coach (AS-IS Process)

Figure 2.1 — AS-IS Process: Student finding a coach without SportRise

Current State — Scout Finding Talent (AS-IS Process)

Figure 2.2 — AS-IS Process: National scout finding talent without SportRise

2.2 Business Challenges

ID	Challenge	Impact	Affected Stakeholder
BC-01	No platform to find verified coaches	Talented students miss quality coaching — talent development stunted	Student Athletes
BC-02	Achievements go completely unrecorded	A student who wins a local tournament has zero digital proof of achievement	Student Athletes
BC-03	Talent in small cities is invisible nationally	Scouts can only find players who are already known — systemic bias against tier 2/3 cities	Scouts, Students

BC-04	No performance data for scouts	Scouts rely on subjective observation during expensive physical visits	National Scouts
BC-05	Paper-based tournament registration	Organizers reach only local participants — national talent pool untapped	Tournament Organizers
BC-06	No retention mechanism for athletes	Athletes who train consistently have no visible progress record to motivate them	Student Athletes, Coaches

2.3 Strategic Alignment

Strategic Initiative	How SportRise Aligns
Khelo India Program (Govt of India)	SportRise directly supports Khelo India's grassroots talent identification mission — partnership opportunity
TOPS Talent App (SAI, June 2025)	SportRise can serve as the grassroots feeder platform feeding identified NP athletes into the TOPS Olympic pathway
Digital India Initiative	SportRise creates digital records for 47 crore athletes currently invisible to the digital economy
Startup India / T-Hub Hyderabad	SportRise is built in Hyderabad's startup ecosystem with direct access to T-Hub incubation and funding
National Sports Policy 2025	Aligned with India's push to become a top-10 sporting nation by 2028 — talent discovery is the foundation

3. PROJECT SCOPE

3.1 In Scope — Phase 1

Scope Area	Detail
Geography	Hyderabad, Telangana only in Phase 1
Sports Covered	Football only in Phase 1
Target Age Group	5 to 30 years — primary focus on college athletes aged 16-25
Platform	Android mobile application only
Student Module	Registration, coach discovery, tournament registration, XP tracking, performance profile, notifications
Coach Module	Profile creation and listing, student rating system, session tracking, availability management
Tournament Module	Event listing by organizers, online student registration, result entry, auto XP award
Scout Module	Athlete search and filter dashboard, full performance profile view, shortlist management
Admin Module	Coach verification queue, tournament verification, platform analytics dashboard
XP and Level System	7-level progression from Rookie to National Prospect with automated XP calculation
National Prospect System	Automatic badge award and scout dashboard flagging based on 3 defined trigger conditions

3.2 Out of Scope — Phase 1

Item	Planned For
iOS Application	Phase 2 — Q1 2027
Web Platform	Phase 2 — Q1 2027
Sports beyond Football	Phase 2 — Cricket, Kabaddi, Badminton, Athletics
Pan-India Expansion	Phase 3 — City by city rollout starting with Chennai and Pune
In-App Payment Gateway	Phase 2 — Razorpay integration for coach booking payments
Live Match Streaming	Phase 3
Team and Club Registration	Phase 2
Automated Coach Certification Verification	Phase 2 — Manual admin verification in Phase 1
Social Feed and Community Features	Phase 2
Sponsorship Discovery for Athletes	Phase 3

3.3 Assumptions

- Coaches have valid and verifiable sports certifications from recognized bodies such as AFI, AIFF, SAI

- Students in Hyderabad have Android smartphones with minimum 4G internet connectivity
- Tournament organizers are willing to shift from paper-based to digital registration processes
- At least one state sports body will agree to a formal partnership within Year 1
- Parents of users under 18 will provide digital consent when requested through the app
- Google Play Store will approve the SportRise app within standard review timelines
- SMS gateway provider will deliver OTPs within 60 seconds on standard Indian SIM cards

3.4 Constraints

Constraint	Value	Impact
Budget	Phase 1 maximum Rs 15-20 lakhs total	Technology stack and team size constrained
Timeline	MVP must launch by September 2026	Development must start immediately after BRD sign-off
Platform	Android only in Phase 1	iOS users cannot access in Phase 1
Geography	Hyderabad only in Phase 1	National expansion deferred to Phase 3
Sport	Football only in Phase 1	Other sport communities must wait for Phase 2
Team Size	Maximum 4 people in founding team	Feature scope must be tightly managed
Legal	DPDP Act 2023 compliance mandatory	Data storage and consent flows add development time

4. STAKEHOLDERS

4.1 Key Stakeholders

Stakeholder	Type	Role	Primary Interest	Involvement
Student Athletes (5-30)	Primary User	Register, train, compete, get discovered	Recognition and career development	High
Certified Coaches	Primary User	List services, coach students, rate performance	Student reach and income	High
Tournament Organizers	External	Post events, manage registrations, enter results	Maximum participation and visibility	Medium
National / State Scouts	External	Search and recruit talent	Finding exceptional athletes efficiently	Medium
Sports Federations (SAI)	External Partner	Validate platform, provide data access	Build national talent pipeline	Low-Medium
Parents of Minor Athletes	Indirect	Monitor child progress, give consent	Child safety and development	Medium
Platform Admin Team	Internal	Verify coaches, manage platform quality	Platform integrity and quality	High

Project Sponsor / Founder	Internal	Fund project, make key decisions	ROI and social impact	High
Schools and Colleges	Institutional	Bulk student registration, sports events	Student achievement visibility	Low
Development Team	Internal	Build the platform	Technical delivery	High

4.2 Roles and Responsibilities

Role	Responsibilities
Business Analyst	Own the BRD and FRD. Facilitate stakeholder workshops. Write user stories and acceptance criteria. Plan and facilitate UAT. Manage requirements changes.
Product Owner	Prioritize product backlog. Make go/no-go decisions on features. Represent business in sprint reviews. Sign off on UAT.
Technical Lead	Review BRD for technical feasibility. Lead system design. Oversee development team. Manage sprint delivery.
QA Lead	Derive test cases from requirements. Execute system testing. Report defects. Manage regression testing.
Admin Team	Verify coach and tournament submissions. Monitor platform quality. Handle user support escalations.
Coach Stakeholders	Provide feedback during discovery and UAT. Validate coach workflows. Represent coach community needs.
Student Stakeholders	Participate in UAT testing. Provide UX feedback. Represent student community needs.

4.3 RACI Matrix

RACI MATRIX — SportRise Phase 1 R=Responsible A=Accountable C=Consulted I=Informed							
Activity	Student Athlete	Coach	Organizer	Scout	Admin	BA / PO	Dev Team
Student Registration	R	C	—	—	A	C	I
Coach Verification	I	R	—	—	A	C	I
Tournament Listing	I	—	R	—	A	C	I
XP Calculation	I	R	R	—	I	A	R
NP Badge Award	I	—	—	I	C	A	R
Scout Search	—	—	—	R	I	A	I
UAT Execution	C	C	C	C	C	A	I
Go-Live Approval	I	I	I	I	C	A	R

Figure 4.1 — RACI Matrix: R=Responsible A=Accountable C=Consulted I=Informed

5. BUSINESS OBJECTIVES

5.1 Primary Objectives

ID	Objective	Target	Timeline
BO-01	Grow student athlete user base in Hyderabad football community	500 registered students	Month 3
BO-02	Onboard and verify certified football coaches on platform	50 verified coaches	Month 2
BO-03	Drive active coaching engagement between students and coaches	200 bookings per month	Month 4
BO-04	Activate tournament discovery and registration ecosystem	10 tournaments listed	Month 3
BO-05	Demonstrate talent recognition through NP system	50 students at Level 5 and above	Month 6
BO-06	Enable national scout talent discovery through platform	10 active scouts using platform	Month 5
BO-07	Achieve meaningful user retention	40% Day-30 retention rate	Month 3
BO-08	Generate initial revenue to prove business model	Rs 25,000 monthly recurring revenue	Month 4

5.2 Success Metrics (KPIs)

KPI	Measurement Method	Target	Reporting Frequency
Total Registered Students	Count of user accounts with role = student	500 by Month 3	Weekly
Verified Coaches Active	Count of coach_profiles where is_verified = true	50 by Month 2	Weekly
Monthly Coaching Bookings	Count of coaching_sessions created per month	200 by Month 4	Monthly
Tournaments Listed	Count of verified tournament records	10 by Month 3	Monthly
National Prospects Badged	Count of students where is_national_prospect = true	25 by Month 6	Monthly
Day-30 User Retention	% of users who return 30 days after registration	40% by Month 3	Monthly
App Crash Rate	Crashes per session via Firebase Analytics	Below 1%	Daily during Super Care
Monthly Recurring Revenue	Sum of coach subscription fees + tournament listing fees	Rs 25,000 by Month 4	Monthly

Play Store Rating	Average star rating on Google Play Store	4.0 or above	Weekly
OTP Delivery Rate	% of OTPs delivered within 60 seconds	Above 95%	Daily during Super Care

5.3 Expected ROI

Revenue Stream	Calculation Basis	Year 1 Projection
Coach Subscriptions	50 coaches x Rs 499/month x 6 months (Month 7-12)	Rs 1,49,700
Tournament Listing Fees	20 tournaments x Rs 999 per listing	Rs 19,980
Premium Student Profiles	100 students x Rs 99/month x 6 months	Rs 59,400
Total Year 1 Revenue	Conservative estimate based on Phase 1 targets	Rs 2,29,080
Khelo India Grant (applied)	Sportstech innovation category — if awarded	Rs 15,00,000 (grant)
Break-Even Timeline	Based on team of 4, Rs 15L build cost	Month 14-16 (without grant)

6. BUSINESS REQUIREMENTS

6.1 High Level Business Requirements

ID	Business Requirement	Priority	Source Stakeholder
BR-001	System must allow student athletes to register with name, age, sport, and city	Must Have	Students
BR-002	System must allow students to discover and filter verified coaches by sport and location	Must Have	Students
BR-003	System must allow students to register for upcoming verified tournaments	Must Have	Students
BR-004	System must automatically calculate and award XP based on coaching ratings and tournament results	Must Have	Product / Students
BR-005	System must display student level and XP progress visibly on their profile and dashboard	Must Have	Students
BR-006	System must automatically award National Prospect badge when trigger conditions are met	Must Have	Scouts / Students
BR-007	System must allow certified coaches to create verified listing with fees and availability	Must Have	Coaches
BR-008	System must allow scouts to search and filter athletes by sport, level, city, and age	Must Have	Scouts
BR-009	System must notify students when a scout views their profile	Should Have	Students
BR-010	System must allow organizers to post tournaments with full details and registration management	Must Have	Organizers
BR-011	System must require admin verification before coach or tournament listing goes live	Must Have	Admin / Trust
BR-012	System must enforce parental consent for all users under 18 years of age	Must Have	Legal / Parents
BR-013	System should display ranked leaderboard of top athletes by sport for scout use	Should Have	Scouts
BR-014	System must support English, Hindi, and Telugu languages at launch	Must Have	Students

6.2 Business Rules

Rule ID	Rule Name	Rule Definition
BRU-01	Age Range	No account may be created for a user below age 5 or above age 30

BRU-02	Verification Gate	No coach profile or tournament listing is visible to any user until admin explicitly approves it
BRU-03	XP Immutability	XP transactions are permanent records — they cannot be modified or deleted once created
BRU-04	NP Badge Permanence	National Prospect badge once awarded cannot be removed by any automated process
BRU-05	Unique Tournament Registration	Each student may register for each tournament only once
BRU-06	Coach Rating Finality	A coach's session rating cannot be changed after submission
BRU-07	Parental Consent Mandatory	Users aged 5-17 cannot access any platform features until parental consent is confirmed
BRU-08	Scout Anonymity	Scout identity is never revealed to athletes — notification says 'A national scout viewed your profile'
BRU-09	Data Residency	All user data must be stored on servers physically located in India — DPDP Act 2023 compliance
BRU-10	NP-C3 Distinct Coaches	For National Prospect Condition 3, exceptional ratings must come from at least 3 different coaches

6.3 Business Process Requirements

Future State — Student Coaching Journey (TO-BE)

Figure 6.1 — TO-BE Process: Student books coach and earns XP on SportRise

Future State — Coach Onboarding (TO-BE)

Figure 6.2 — TO-BE Process: Coach registers and gets verified on SportRise

Future State — Tournament Registration (TO-BE)

Figure 6.3 — TO-BE Process: Tournament lifecycle on SportRise

Future State — National Prospect Identification (TO-BE)

Figure 6.4 — TO-BE Process: National Prospect automatic identification and scout discovery

6.4 Reporting Requirements

Report Name	Description	Frequency	Audience
Platform Health Dashboard	Daily active users, crash rate, OTP delivery rate, session count	Daily	BA, Tech Lead
User Growth Report	New registrations by role, city, sport per week	Weekly	Product Owner, Sponsor
KPI Progress Report	All 10 KPIs vs targets with traffic light status	Monthly	All Stakeholders
Coach Performance Report	Sessions, average rating, exceptional count per coach	Monthly	Admin, BA
Tournament Success Report	Registrations, completion rate, XP awarded per tournament	Per tournament	Admin, Organizers
National Prospect Report	NP badges awarded, scout views, recruitment interest sent	Monthly	Sponsor, Scouts
Revenue Report	MRR by stream, cumulative revenue vs projection	Monthly	Project Sponsor
Defect Tracking Report	Open defects by severity, resolution rate, SLA compliance	Weekly during Super Care	QA, BA

7. NON-FUNCTIONAL REQUIREMENTS

7.1 Performance Expectations

NFR ID	Requirement	Acceptance Criterion
NFR-P01	App load time	App home screen must load within 3 seconds on 4G mid-range Android device
NFR-P02	Search response time	Coach and scout search results must return within 2 seconds
NFR-P03	XP update time	Student XP must update within 60 seconds of triggering event
NFR-P04	OTP delivery	OTP must be delivered within 60 seconds of request on standard Indian SIM
NFR-P05	Concurrent users	System must support 10,000 concurrent users at Phase 1 launch without performance degradation
NFR-P06	Uptime	System availability must be 99.5% or above — maximum 3.6 hours downtime per month

7.2 Security Needs

NFR ID	Requirement	Acceptance Criterion
NFR-S01	Data encryption	All user data must be encrypted at rest and in transit using AES-256 and TLS 1.3
NFR-S02	Coach verification gate	Unverified coach profiles must never appear in any student-facing API response
NFR-S03	Parental consent enforcement	Users aged 5-17 must be blocked from all protected endpoints until parental consent status = confirmed
NFR-S04	Scout anonymity	Scout user ID must never be included in athlete notifications or any athlete-facing API response
NFR-S05	Authentication	All API endpoints except registration and OTP must require valid JWT authentication token
NFR-S06	OTP security	OTP must expire after 10 minutes and maximum 3 failed attempts before 30-minute lockout

7.3 Compliance Requirements

NFR ID	Requirement	Detail
NFR-C01	DPDP Act 2023	All personal data collection must have explicit user consent. Users must be able to request deletion of their data.
NFR-C02	Minor Data Protection	Users under 18 require verifiable parental consent before any data is processed or features accessed

NFR-C03	Data Residency	All data must be stored on servers physically located in India — no international data transfer
NFR-C04	Play Store Policies	App must comply with all Google Play Store developer policies including content rating and privacy policy requirements
NFR-C05	Language Compliance	App must support English, Hindi, and Telugu at launch per regional language requirements
NFR-C06	Accessibility	Minimum touch target 48x48dp. Text contrast ratio minimum 4.5:1. All nav icons have text labels.

8. DEPENDENCIES & RISKS

8.1 Dependencies

ID	Dependency	Owner	Risk Level	Mitigation
DEP-01	SMS Gateway for OTP and notifications	External vendor (MSG91 or similar)	Medium	Pre-test with 2 vendors before go-live
DEP-02	Google Play Store app review and approval	Google	Low	Submit 2 weeks before target launch date
DEP-03	Coach certification records from sports bodies	Sports federations	High	Offer manual upload of PDF certificates as fallback
DEP-04	Cloud infrastructure setup (AWS or Supabase)	Tech team	Low	Use managed services to reduce setup complexity
DEP-05	Push notification service	OneSignal (free tier)	Low	Free tier supports up to 10,000 devices
DEP-06	File storage for profile photos	AWS S3 or Cloudinary	Low	Free tiers adequate for Phase 1 volumes

8.2 Assumptions

- Coaches have valid certifications from recognized sports bodies available for upload
- Students in Hyderabad have Android phones with minimum Android 8.0 and 4G internet
- Tournament organizers will adopt digital processes if registration is significantly easier
- At least one state sports body or federation will partner in Year 1
- Parents of under-18 users will cooperate with the consent process
- Google Play Store will approve the app within 3-7 working days of submission

8.3 Risks & Mitigation

ID	Risk	Probability	Impact	Mitigation Strategy
----	------	-------------	--------	---------------------

R-01	Low coach adoption at launch	High	High	Free listing for first 6 months. Manually onboard 50 coaches before public launch.
R-02	Chicken-and-egg — no coaches so no students	High	High	Supply-first strategy: onboard coaches before opening student registration.
R-03	Fake or misleading tournament listings	Medium	High	Mandatory organizer ID verification by admin before listing goes live.
R-04	Data privacy breach for minor users	Low	Critical	Parental consent, data encryption, regular security audits, DPDP Act compliance.
R-05	Slow government and federation partnerships	High	Medium	Launch independently. Approach SAI after proof of traction at Month 3.
R-06	Google Play Store rejection	Low	High	Follow all Play Store policies strictly. Submit app for internal review first.
R-07	Poor internet in tier 2 and 3 cities	Medium	Medium	Build offline mode for profile viewing and basic features in Phase 1.5.
R-08	Well-funded competitor enters same space	Medium	High	Build fast. Own Hyderabad before any competitor notices. Network effects protect.
R-09	XP calculation bug damages trust	Low	Critical	Extensive UAT for XP engine. Immutable transaction log. Admin review dashboard.

9. TIMELINE & MILESTONES

Figure 9.1 — SportRise Phase 1 Project Timeline and Key Milestones

9.1 Project Phases

Phase	Timeline	Key Deliverables
Phase 0 — Foundation	Week 1-2	Domain live (sportrise.in), email setup, social media, waitlist page, BA documents complete
Phase 1 — Build	Month 1-2	MVP development, coach onboarding (target 50), UAT round 1, bug fixes
Phase 2 — Beta Launch	Month 3	Beta release to 500 waitlist users, super care period, UAT round 2, Play Store submission
Phase 3 — Public Launch	Month 3-4	Full public launch, marketing campaign, first tournament on platform, first NP badges awarded
Phase 4 — Growth	Month 4-5	500+ students, 50+ coaches, 10+ tournaments, first scout recruiting, revenue generation
Phase 5 — Scale Planning	Month 6	PIR complete, Phase 2 spec (iOS + second sport), T-Hub application, pre-seed fundraise

9.2 Key Milestones

M#	Milestone	Target Date	Success Criterion
M-01	BRD signed off by all stakeholders	Week 2	All stakeholder signatures obtained
M-02	sportrise.in live with waitlist	Week 1	Page accessible, form collecting signups
M-03	50 coaches committed to platform	Month 2	50 coaches with verified profiles ready before student launch
M-04	MVP development complete	Month 2	All Phase 1 features built and unit tested

M-05	UAT Round 1 complete	Month 2	All UAT scripts executed, defects logged
M-06	All S1 and S2 defects resolved	Month 3	Zero critical or major open defects
M-07	App approved on Google Play Store	Month 3	SportRise listed and downloadable on Play Store
M-08	Public launch — Hyderabad Football	September 2026	App live, first 100 students registered in Week 1
M-09	First National Prospect badge awarded	Month 4	At least 1 student meets NP trigger conditions
M-10	First scouting success story	Month 4-5	One student contacted by a scout through SportRise
M-11	Revenue target achieved	Month 4	Rs 25,000 MRR from coach subscriptions and tournament fees
M-12	Post-Implementation Review complete	Month 6	PIR document produced, Phase 2 scope agreed

9.3 Go-Live Date

Target Go-Live

SportRise Phase 1 is targeted to go live on the Google Play Store in September 2026, ahead of the college sports season which begins in October 2026. This timing ensures maximum student athlete adoption during the active sports period in Hyderabad. The go-live is contingent on all M-01 through M-07 milestones being completed successfully.

10. APPROVAL & SIGN-OFF

10.1 Approval Matrix

Approver Role	Authority	Review Scope	Approval Required For
Project Sponsor	Final decision authority	Full BRD	All major changes to scope, budget, or timeline
Product Owner	Business requirements authority	Sections 1-6	Changes to business requirements or priorities
Lead Business Analyst	Requirements authority	All sections	All requirement changes post sign-off
Technical Lead	Technical feasibility	Sections 6-7	NFR changes and major scope additions
QA Lead	Testability authority	Sections 6-7	Acceptance criteria and NFR changes
Legal / Compliance	Compliance authority	Section 7.3	Any compliance-related requirement changes

10.2 Change Control Process

Post Sign-Off Change Process

After this BRD is signed off, any change to requirements must follow the formal Change Request process: (1) BA raises a Change Request document with impact analysis, (2) Product Owner reviews and approves or rejects, (3) If approved, BA updates BRD with new version number, (4) All affected stakeholders re-sign. No verbal changes are accepted. Every change is documented.

10.3 Sign-Off Section

By signing below, the undersigned confirm that they have reviewed this Business Requirements Document in full and agree that it accurately and completely represents the requirements for SportRise Phase 1. They grant formal approval to proceed with solution design and development based on these requirements.
